

M200 Wired Range of Input/Output Modules Orders

November 2021

The System Sensor M200 wired range of Input/ Output modules has been redesigned to address microcontroller obsolescence and to grant full backward-compatibility.

In our communication dated April this year, we informed you that VdS and Bosc certificates are expected by the end of December 2021. As for now, all activities are on track for this timeline.

We would like to share important information on old modules availability in order to best plan for Q1 2022 and ensure sales continuity in Germany and Benelux.

Stock of Renesas microcontrollers mounted in old modules is very limited and will allow us to deliver only a limited number of upcoming orders.

A total amount of reserved microcontrollers will be shared with you separately in the next days to make you plan the demand accordingly and within this limit.

With that in mind, we kindly suggest you to accelerate now the conversion to the new modules.

1. you should refer to the old modules only in short term projects
2. you should already quote the new module SKU in long term ones, assuming VdS & Bosc will be cleared by then and convert part of backlog is possible

Description	Old Part Number	New Part Number
INTELLIGENT MODULE - 1 INPUT	M210E	M210EA
INTELLIGENT MODULE - 2 INPUT	M220E	M220EA
INT.MODULE - 2IN-1OUTPUT	M221E	M221EA
INT.SINGLE OUTPUT MODULE	M201E	M201EA
INT.SINGLE OUTPUT MODULE – HIGH CURRENT MODE	-	M201EA-HC
INT.SINGLE OUTPUT MODULE 240V RELAY	M201E-240	M201EA-240
INT.SINGLE OUTPUT MODULE 240V RELAY	M201E-240-DIN	M201EA-240
INTELLIGENT MODULE - 1 INPUT	M710	M710E
INTELLIGENT MODULE - 2 INPUT	M720	M720E
INT.MODULE - 2IN-1OUTPUT	M721	M721E
INT.SINGLE OUTPUT MODULE	M701	M701E
INT.SINGLE OUTPUT MODULE – HIGH CURRENT MODE	-	M701E-HC
INT.SINGLE OUTPUT MODULE 240V RELAY	M701-240	M701E-240
INT.SINGLE OUTPUT MODULE 240V RELAY	M701-240-DIN	M701E-240
INTELLIGENT MODULE - 1 INPUT	MI-DMMI	MI-DMMIE
INTELLIGENT MODULE - 2 INPUT	MI-DMMI2I	MI-DMMI2IE
INT.MODULE - 2IN-1OUTPUT	MI-D2ICMO	MI-D2ICMOE
INT.SINGLE OUTPUT MODULE	MI-DCMO	MI-DCMOE

Description	Old Part Number	New Part Number
INT.SINGLE OUTPUT MODULE – HIGH CURRENT MODE	-	MI-DCMOE-HC
INT.SINGLE OUTPUT MODULE 240V RELAY	MI-D240CMO	MI-D240CMOE
INT.SINGLE OUTPUT MODULE 240V RELAY	MI-D240CMO-DIN	MI-D240CMOE
INTELLIGENT MODULE - 1 INPUT	TC809E1043	TC809E1043A
INTELLIGENT MODULE - 2 INPUT	TC809E1050	TC809E1050A
INT.MODULE - 2IN-1OUTPUT	TC809E1068	TC809E1068A
INT.SINGLE OUTPUT MODULE	TC810E1032	TC810E1032A
INT.SINGLE OUTPUT MODULE 240V RELAY	TC810E1040	TC810E1040A
INT.SINGLE OUTPUT MODULE 240V RELAY	TC810E1057	TC810E1040A

Thank you for your understanding as we navigate through this final step of the certification, which is in the hands of external approval agencies.

Let's work together to drive conversion. Next update should be expected mid of December, stay tuned!
