

## Agile HWKIT POLE Discontinuation

June 2023

System Sensor Europe has decided to discontinue selling the survey pole.

To improve on the supply chain and use experience, System Sensor will not provide this part, it can be ordered directly through Streamline and Composite Poles. This would improve the supply chain and pricing for our customers.

Therefore, we will discontinue the item and recommend purchasing the combined hardware of pole and mounting cup directly from the supplier.

The quality and functionality of the product will remain unaltered, being the same item supplied in the past, the only change is the supply chain.
